Mr. Fillippo Patroni Griffi  
President  
Council of State of Italy

Dear Mr. President,

Dear Colleague,

thank you very much for your letter and your words of encouragement so needed in the current critical situation.

Please accept also my sincere condolence and expressions of solidarity for you, your Colleagues and all Italian citizens who are struggling another week with the epidemic. We are impressed by the courage and dedication of your medical and state services.

I agree with you that Europe will emerge stronger from this crisis, because extreme situations release good in people. We received news, that suffering people can find places in hospitals not only in their own countries but also abroad. As history teaches us, only united we can win.

As a members of ACA-Europe Association we can be now in electronic contact, but I hope to meet you soon.

Yours sincerely,
